SurfaceLogix Introduces Cobble Loc Matte to the Cobble Loc Family

The same day clean and seal water-based, eco-friendly paver sealer provides an enhanced, wet-look appearance with a new, modern matte finish.

FOR IMMEDIATE RELEASE:

April, 2014 (Pompano Beach, FL) – Adding to its wide range of eco-friendly, low VOC decorative hardscape and maintenance products, SurfaceLogix has introduced the newest product in the “same day clean and seal” Cobble Loc family, Cobble Loc Matte. Providing a wet-look, enhanced appearance like that of solvent-based sealers, water-based Cobble Loc Matte also features a modern matte finish.

For homeowners and contractors that are looking for an eco-friendly sealer for concrete pavers, natural stone and concrete surfaces that enhances and enriches the look of the surface without adding shine, Cobble Loc Matte is the product for the job. At the same price as original Cobble Loc, Cobble Loc Matte is an affordable option for same day cleaning and sealing with a whole new look.

For more information, Cobble Loc Matte can be found online at <http://www.surfacelogix.net/cobble-locmatte.html> and the technical data sheet can be accessed [here](#).

SurfaceLogix – a Reliance Supply Company

Founded in 1950, SurfaceLogix has been manufacturing and distributing the highest quality sealers, cleaners and paver care products for the construction industry for over 60 years, while continuing to innovate. Committed to the introduction of new eco-friendly products, SurfaceLogix now produces products that are water based and low-VOC to address problems such as environmental sustainability, air quality and water conservation, while maintaining product durability.
